#### PROPHECY

Revelation
------------

Welcome to the Bible Study Application. This application will help you keep track of your daily readings, give you the option to search the American Standard Version of the Bible, along with several other items.

If you click on the File menu in the upper le#-hand corner will show the following menu.

When you click on the "Bible Study Chapter Titles" a PDF document will display showing ever single book of the Bible with the different titles of each of the chapters.

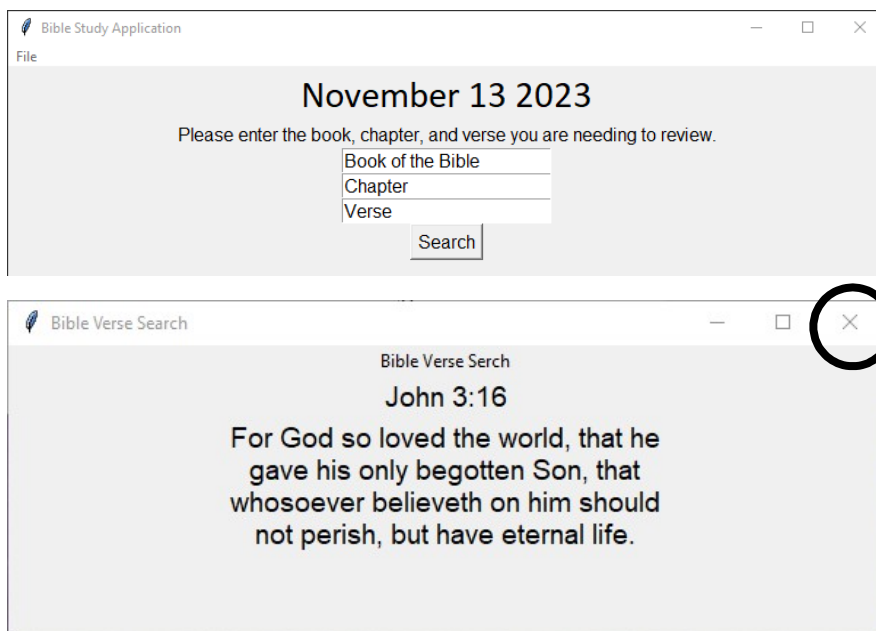

"Topical Bible Search" will link out to a website created by OpenBible allowing the user to run a search on the different topics in the bible. For example, if searching for breakfast, it will pull up a list of the different verses on breakfast.

"Daily Reading Plan" will pull up an Excel document allowing you to mark your daily reading on the Bible complete and add any notes needed on the reading.

"Help" will show the user this help document.

"Exit" of course will close out of the application.

The user has the option of searching for a specific verse in the Bible by using the search at the top of the window. Once you click the search button it will pull up the screen below. Once the user has reviewed the verse, just click the close button out of the application window.

Finally, on the Books of the Bible background, each breakout of the book has a button. When the user clicks on these buttons a PDF document will appear giving a description of and a description of each of the books.
